

ANNUAL REPORT (2021-22)

The wonderful result of the academic session gone by made me reflect on the laurels of the past and endeavours for the future. The School has always moved with time bringing latest methodology in teaching with ultra modern Computer and Language labs and upgradation in other Labs.

The School has always inspired the young minds to come out with their creativity. The sincere efforts of the Staff and keen interest of the students help us to reap the sweet fruits of hard work.

We have excellent results in Class XII and Class X in session 2020-2021. 21 students secured 90% and above in XII. Dipti from Humanities stream secured 97.2% and Simran from same stream secured 96.6% followed by Tamanjit, Chidambra both securing 96.4% marks in Humanities & Commerce Stream respectively

In Class X we had 100% result, 29 students secured 90% and above marks. Bhumika bagged the first position by securing 98% and Arushi bagged second position by securing 97% whereas Prakriti was at third position and she secured 95.6% marks. Kumud secured 95.4% marks followed by Ratinderdeep securing 95.2%.

School plays an important role in the overall development of the Child. Special Assemblies are a part of this curriculum. Special assembly on 'Green Diwali' was there to teach the children about eco-friendly environment. 'Mobile A boon or bane' taught them to limit their use of mobile phones. Special assembly on 'Child is an uncut diamond' was conducted to teach that each child is unique. 'Fitness for Your Mind, Body & Spirit' was another special assembly teaching them the importance of taking balanced diet, doing regular exercise and avoiding junk food. Another beautifully assembly was 'A tribute to Our Freedom Fighters'.

Moreover there was a celebration of Environment week and we witnessed a Tree Plantation Drive in the school. Most of the children have now inculcated a habit of bringing one plant each during the environment week and even on their birthdays. They themselves plant a sapling in the School garden and take care of it. I really feel proud to see the lush greenery in and around the School campus.

I am really proud to say that we are the only School that is having best facilities for our Students in and around Samana. We have separate Labs, there is Computer Lab, Language Lab, Physics Lab, Biology Lab, Chemistry Lab, Maths Lab, Social Science Lab and Composite Science Lab too, to cater to the needs of the students. We have Smart Classes to deepen their understanding in the subjects as topics are recapitulated from there. We also try to satisfy the quest of knowledge of our students through a wonderful bond of teacher and taught in the classroom.

Further, I would like to add that we have separate Art, Dance and Music Rooms too for the

aesthetic and spiritual development of the Children. For the safety of the Students we provide them safe RO drinking water. Fire extinguishers are installed at a number of places to make school a safe place in case of emergency.

Earlier, a number of trips are organized every year for Children so that they enjoy the excitement of visiting new places. It gives them the horizon to see life beyond their imagination. One day trips were organized and one of our mesmerizing excursion was tour to America. 28 Students had mind blowing experience of being in America where they visited number of places and their visit to NASA was also one adding experience to their life.

Art Education was promoted amongst students through different activities. Students participated in different inter-class competitions. Inter-house projects were also made by our students. Students participated in “Ek Bharat Shreshtha Bharat”, Science Challenge Quiz, Azaadi ka Amrit, Swachh Bharat Abhiyaan, Reading Challenge conducted by CBSE. Students participated online in different activities through Hubs. Our teachers participated in online Teachers Training conducted by CBSE and Diksha App.

Now coming on to Sports arena...

Due to Covid restrictions, there were very less sports event held, yet few of our students managed to get medals for the school. We are glad to share that Jashanpreet Singh of class +2 (Commerce) got Silver Medal in Indian National Federation Cup 2021 held in Goa on 25 and 26 Nov. 2021 in the event Long Jump.

Tushar Rattan of class 10-A bagged Gold Medal at International Level Taekwondo championship organized by ASCI held at Jaipur.

Harshad Seth of class 6-B has won silver medal at International Level Taekwondo championship organized by ASCI held at Jaipur.

Anshdeep Singh of class 8-A got Silver medal in National Level Karate Tournament held at Goa in November 2021

Amritpreet Kaur of class 10-B got Bronze medal in national Level Karate Tournament held at Goa in November 2021

I am really delighted to see the School making progress in leaps and bounds. To conclude my address, I would like to express my heartfelt gratitude to parents for reposing faith in us. Each member of the staff for their dedication and above all, I thank the members of the Management for their constant support and guidance.

It is my cherished wish that you all succeed in the endeavours you undertake. I wish you success and prosperity. Always believe in your abilities and have firm faith that

“Winter always changes to Spring”.

Thank You
